<p><u>12" Prolite Triangle Truss</u></p> <p>This light duty truss is exceptionally strong with spigoted connections. Truss corners and various section lengths allow a wide spectrum of vertical or horizontal sized frames. Great for flying large fabric and trans lights.</p> <p><u>12" C.L. Box Truss</u></p> <p>Is a medium duty truss and is suitable where overall profile requires a compact yet strong truss. Complex rigging structures are easily accomplished with the wide variety of accessories available. Main chords are 2" O.D. with 1/8" wall thickness.</p>
